

SRISTI Rakshak

Innovator: Community Knowledge Workers	Address : National Innovation Foundation – India Satellite Complex, Nr. Mansi Cross Roads, Satellite, Ahmedabad -380 015, Gujarat, India.	Contact Details: +91-79-26732456, 26732095
Problem addressed: Cotton cultivation faces the disastrous pest problem, despite the selection of resistant varieties. The use of Pesticides helps to reduce these crop losses, provide economic benefits to the farmers and also ensures food safety and security for the nation. As our product is purely made from herbal extracts, it does not leave any harmful side effects on the land as well as on the feed for cattle.		
Product : SRISTI Rakshak is a 100% pure natural, organic and herbal composition to control the pest problem in cotton fields. The compositions are good enough to control sucking pests, bollworms and whitefly. The good thing is, all the way is perfectly natural as well as economical. However, in traditional cultivation methods, control of cotton insect pests requires a variety of control methods, which are certainly not economical.		
Key Competitive Advantage:	<ul style="list-style-type: none"> • Available at affordable price. • Easy to use. • No harmful effects on land. 	
Price:	Rs.250 per 500 ml
