

SRISTI Sarvatra

Innovator: Community Knowledge Workers	Address : National Innovation Foundation – India Satellite Complex, Nr. Mansi Cross Roads, Satellite, Ahmedabad -380 015, Gujarat, India.	Contact Details: +91-79-26732456, 26732095
Problem addressed: Sucking pests are insects that have special sucking mouth parts to feed on plant saps and ultimately destroys the plant of our interest. Heavily infested plants become yellow, wilted, deformed or stunted, and may eventually die. SRISTI has developed Sarvatra that can be used for all crops to prevent attack of sucking pests.		
Product : These herbal compositions control the sucking pest problem in crop lands and gardens. These compositions are prepared using purest quality herbs and natural ingredients comparable to international quality standards. These sucking pest controllers contribute to the overall wellness of the plants. To suit the varied requirements of customers, we offer these sucking pest controlling compositions in different packaging specifications.		
Key Competitive Advantage:	<ul style="list-style-type: none"> • Available at affordable price. • Easy to use. • No harmful effects on land. 	
Price:	Rs.250 per 500 ml
